### Somebody Should Be Fired

Dear Friend,

Secretary Sebelius visited Phoenix Thursday to promote the Obamacare exchanges and call centers. The audacity of Secretary Sebelius to go on a public relations tour selling a program aimed at increasing enrollment in Obamacare is mind-boggling. Americans are increasingly aware of the many ways this disastrous law is affecting their costs and their care, so many are rightfully rejecting it. Secretary Sebelius coming to Arizona to gloat about a failing system is just rubbing salt in the wounds of American citizens, who are footing the bill for her continued failures. Click [HERE](#) to read my official statement.

Experts throughout the nation are waving red flags about the design and implementation of the 'navigators' program. Intended to be an army of propagandists with the sole task of selling the failing program, this group has the makings of a nightmare for the privacy and security of Americans. Recent reports have shown that employees trusted with personal and confidential information have not been subject to criminal background checks or proper vetting. Click [HERE](#) to read more about the navigators program in the *National Review*.

### New Moves - Honoring An American Hero

I had a great time last Saturday at the Dedication of Tinnell Memorial Sports Park in Lake Havasu City. The Patrick A. Tinnell Memorial sports complex is dedicated to Patrick, a former BMX freestyle rider, who made the ultimate sacrifice in defense of his country in 2006 as part of Operation Iraqi Freedom. It was an honor to participate in this dedication. I even learned some new moves.

(Rep. Gosar attends dedication ceremony, October 19, 2013)

On Wednesday, I took to the House floor to honor the memory of Pat Tinnell and thank all of those involved in creating the Tinnell sports complex. Click [HERE](#) to read more. Click [HERE](#) or below to watch my speech.

### **Don't Be Fooled**

Don't be fooled by our vast deserts. Waterways, dams and ports support 15,160 jobs in Arizona and directly contribute \$1.2 billion to our economy. It is no understatement to say that our nation's waterways are key to commerce and our standard of living in Arizona.

Wednesday I voted in favor of the Water Resources Reform and Development Act, which passed the House of Representatives by a vote of 413 to 3. This bill continues the necessary improvements to critical infrastructure, including repairing and strengthening aging canals, dams and ports. It also cuts red tape and reduces bureaucracy, all while making the necessary investments in water infrastructure to maintain America's competitive edge. Click [HERE](#) to read my official statement.

## We Must Uphold the Rule of Law

Wednesday morning I sat down with the Washington Examiner for a video story to discuss immigration reform. I talk about the importance of upholding the rule of law and the advantages of the piecemeal approach to immigration reform. Click [HERE](#) or below to watch the interview.

## Talkin' Shop

Monday I held business roundtables in Cottonwood, Prescott and Prescott Valley. The business leaders who attended each of these events made one thing very clear: they are fed up with the gridlock and partisanship in Washington. They are sick of feeling like pawns in a political chess game. Their families and businesses are hurting. They want an environment where they can thrive. I will remain focused on solutions that get government out of the way and spur private-sector growth and job creation. Click [HERE](#) to read more.

(Rep. Gosar speaking in Cottonwood, October 21, 2013)

Rooney, Rep. Gosar, President of the Cottonwood Chamber of Commerce Lana Tolleson and Andrea Harless from the City of Cottonwood, October 21, 2013)

(Rep. Gosar talks business in Prescott, October 21, 2013)

(Rep. Gosar speaks at roundtable in Prescott Valley, October 21, 2013)

### **Ending the Week Right**

I ended the week right: in Arizona. Here are some pictures from events I attended over the last couple days:

(Rep. Gosar speaks to Yavapai County Republicans, October 24, 2013)

(Rep. Gosar meets with employees at H&R Block in Prescott, October 24, 2013)

(Rep. Gosar holds a Meet and Greet at the Good Egg in Phoenix, October 25, 2013)

### **Obamacare Malady of the Week**

President Obama promised the American people that "if you like your [health insurance] plan, you can keep your plan." Turns out that was a false promise for hundreds of thousands of people because insurance companies across the country are being forced to cancel up to 80 percent of their individual policies in order to comply with Obamacare. And up to two-thirds of those people will see their rates increase. Click [HERE](#) to read more.

### **Congressional District 4: DID YOU KNOW?**

In November 1934, when construction crews from California illegally began construction of Parker Dam (which creates Lake Havasu) on the Arizona side of the Colorado River, the governor of Arizona, Benjamin Moeur, declared martial law and called up the National Guard. He gave the troops the mission of protecting the "sacred soil of old Arizona," so they set up machine guns to defend the Arizona side of the Colorado. The almost-war ended when the U.S. Supreme Court sided with Arizona.
